

Independent Chair of Wakefield Health and Care Partnership - Committee of the West Yorkshire Integrated Care Board

Thank you for expressing an interest in the independent chair role on the Wakefield District Health & Care Partnership committee of the West Yorkshire Integrated Care Board (ICB). The ICB is a statutory organisation.

It is part of the West Yorkshire Integrated Care System (ICS) - known as the West Yorkshire Health and Care Partnership (the Partnership).

Our principles of subsidiarity and our scale mean that the ICB primarily discharge its duties through delegation to each of our five local places, alongside work that is delivered at a West Yorkshire level. Most decisions are made at place level, in support of local Health and Wellbeing Board priorities and multi-agency partnerships working in communities, including NHS, local authority and voluntary community social enterprise sector partners.

Each of our places (Bradford District and Craven, Calderdale, Kirklees, Leeds and Wakefield) has established an ICB Committee with delegated authority from the ICB to make decisions about the use of NHS resources in that local place, including agreeing a plan to meet the health and healthcare needs of the population, allocating resources to deliver the plan and arranging for the provision of health services.

Place committees are made up of senior leaders including those from the local authority, NHS provider trusts, primary care and the voluntary community social enterprise sector. Place committees operate in similar ways, but their composition vary in line with local needs. Applications are now invited for an independent chair role on the Wakefield District Health and Care Partnership which plays a key role in bringing constructive, independent, and respectful challenge to the plans, aims and priorities of the committee.

Remuneration for an anticipated time commitment of 2 days per month is:

- Independent Chairs: up to £13,000 per annum

Information about the opportunity including contact details, can be found in the applicant packs. The closing date is Friday 26 May 2023
